

Descriptions

The FP series amplifier is a 2U (less than 240W) mixer amplifier featuring 70V, 100V and 4-160hm speaker outputs & 4 universal balanced XLR mic inputs with phantom power. The amplifier rated power ranges from 60W, 120W, 240W to 350W, 500W (3U).

There are 4 audio source selectors on the front panel. 4 Aux inputs by dual RCA type are located on the rear panel. Mic 1-4 with Vox priority selectors. The amplifier is also built-in pre-announcement chime with volume control and remote chime trigger.

The REC output for tape recorder and PRE output, AMP input for adding extra signal processor like mixer, graphic equalizer.

Volume control over Mic1-4, aux, master & overall treble/bass controls are provided. Complete protection includes short circuit and thermal protection, current limiter and overloading.
